ABOUT SCHOOL

Nestled amidst the salubrious surroundings, Army Public School Miran Sahib was established with the purpose to impart quality education to the wards of army personnel living in Miran Sahib and in its immediate vicinity. It was inaugurated on April 03, 1978, by Maj Gen Himmat Singh, the then GOC 26 Inf Div. The founder, with his progressive outlook and grand vision, extended the educational facility to the students of the region to meet their educational needs & aspirations. At the time of its inauguration, it was named 'Lavanya School, Maralia'. At the outset, it could attract & enroll 50 students only. It was later renamed as Army School Lavanya and was upgraded by adding one higher class every following year. On July 01, 1991, the school was converted into Army School Maralia, Miran Sahib, Jammu. The school that started its journey 41 years back as Lavanya School Maralia has come a long way in the past, over three decades with glorious achievements and it added one more feather to its cap by being elevated to Senior Secondary Level in the session 2011-12.

FROM CHAIRMAN'S DESK..

In the pages of this magazine, we don't just print words and images; we encapsulate the spirit of our school. Each article, every photograph, and all the artworks reflect the diverse talents and interests that make our school truly exceptional. It is a mirror that reflects the soul of our institution, capturing the essence of our achievements, dreams, and aspirations.

FROM THE PRINCIPAL..

The school magazine is more than just a publication; it is a reflection of our collective achievements, aspirations, and dreams. Within its pages, we capture the essence of our shared experiences, the beauty of our diversity, and the strength of our unity. It is a showcase of the remarkable accomplishments of our students and the dedication of our educators.

EDITING TEAM..

As we dive into the editing process, let's remember that our goal is not just to correct, but to enhance, elevate, and illuminate. Let's approach this task with passion, dedication, and a keen eye for detail. Together, we will transform individual pieces of work into a harmonious symphony that represents the best of our school. We hope you will enjoy reading !

Investiture Ceremony

“A LEADER IS ONE WHO KNOWS THE WAY, GOES THE WAY, AND SHOWS THE WAY”

LEADER

Student council members of APS Miran Sahib, who were selected following a meticulous personality check and mock interviews, were bestowed with prestigious titles during the investiture ceremony for academic session 2023-24. The elected leaders were conferred with badges and sashes by Honourable Principal, Ms. Ritu Sharma.

MUN (Mock United Nations)

Model United Nations, also known as Model UN or MUN, is an educational simulation in which students learn about diplomacy, international relations, and the United Nations. At an MUN conference, students work as the representative of a country, organization, or person, and must solve a problem with other delegates from around the world.

"I am a woman with thoughts and questions and stuff to say.
I say if I'm beautiful. I say if I'm strong. You will not
determine my story—I will."

Amy Schumer

Home minister - Amit Shah stated that there should be rights for women
Today parliament held a modulated conference was held in Parliament.
On the concern, related to implementation of a bill that is UCC. There
are some ministers in approbation of UCC but some are criticising UCC.

The main agenda of UCC is to make one country and one rule and
that law will give equal rights to all citizens irrespective of their
religion, gender or sexual orientation. It will also ensure protection
for every individual. In Part 4 of constitution, there is article 44
which states that UCC will secure the citizens' rights throughout
the country.

The thing that should be spotted is that UCC will increase women
empowerment and justice.

It will eliminate discriminatory practices and will provide rights and
opportunities to women in areas such as marriage, jobs, inheritance,
divorce and property. Most of the women are very contented for this.

But still this law have some faults as every law has.

So, of course UCC will increase rights for women but on the same side
rights of Muslim women are decreasing

Delegation of Bangladesh put up their views on the given Moderated
Caucus "Reasons for drugs consumption " they stated that the causes
are that their citizens who consume drugs are poor, lack of education,
lack of jobs and many more. In their content, the member of
International Press questioned that their country is not that much
developed to provide educational facilities and jobs opportunities in
order to reduce the intake of drugs. Answering, the delegation of
Bangladesh states that they are creating more job opportunities , more
educational facilities for their citizens in order to control the intake of
drugs by their citizens .

"First you take a drink, then the drink takes a drink, then the drink takes you." — F. Scott Fitzgerald, *The Great Gatsby*

Today was a ravishing day...the opening ceremony was started with a delightful dance performance...after that we all went to cover our committees..Delegate Morocco, us and Netherlands were absent in total 12 delegates were present...Delegate of Bangladesh was the first to put a moderate caucus...on this Maldives presented by Maldives passed...."What is the cause of drug abuse in your country" this was the moderate caucus presented by Maldives...Maldives states that peer pressure leads to drug abuse on the other hand tourism played a great role in drug trafficking.A question was put by India but Alas! It was considered irrelevant by Maldives.

DARKLING

I used to be afraid of dark
But now i am dancing in the serein
I looked around the midst of chaos
For you to comfort my stupid hypophrenia

I used to be afraid of dark
But now i am a big lygophilic
I am having a eye contact with the satan
Knowing you would be at my back

They say"oh he used to look cuter"
And i say "No its the other way around"
I know damn well you realise it very much
But its not something they will understand

If any one of us dies
I hope u die first
Cause i dont want u want you to feel
wistorogic
Weeping around with starvation and thirst

You will be my first little baby
My first forelsket
My little world
You will be my first priority
That i will always hold

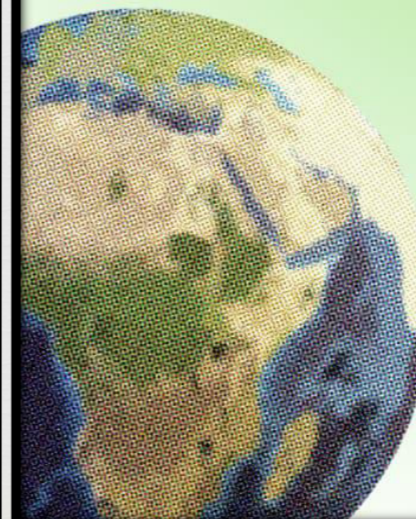

I hope they see your honey eyes
Before those wrenching flaws
Make sure you always scare them
With a roaring bark
Without you a long time ago
I used go be afraid of the dark

GLIMPSE OF WORLD OF INNOVATION

Innovative Corner : Atal Tinkering Lab

- Atal Tinkering lab(ATL) is a submission under **Atal Innovation Mission of the Government of India**.
- It's aim is to cultivate an innovative mindset amongst the high school students across the length and breadth of India.
- So our young creative students have worked on several projects in this month of October such as:
 - 1. Password door lock
 - 2. Automatic dustbin
 - 3. Security Alarm
 - 4. Black line following Robot car
- The objective of this lab is to foster curiosity, creativity and imagination in young minds and inculcate skills.

Personal development

Personal development is looking inward and focusing on ways to better yourself. Personal development increases your self-awareness, your self-esteem, increases your skills, and fulfills your aspirations. To reach self-actualization means we're reaching the highest levels of self-awareness, self-confidence, personal growth, and self-realization.

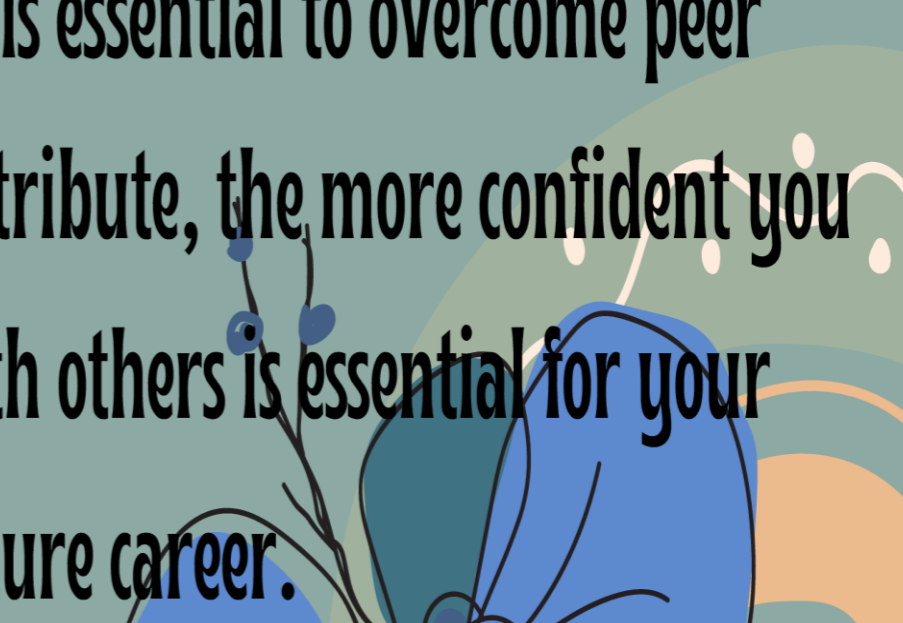

Team work

Talent wins games, but teamwork and intelligence win championships.

Some people are introverts, so collaborating with others can be a stressful experience. A group project might be a scary announcement for many students, which is understandable. Teamwork can help sensitive students overcome their fears and learn how to deal with critique. Teenagers can be vulnerable, but active involvement in social activities is essential to overcome peer pressure effectively. The more you participate in a team and contribute, the more confident you become. Making an effort to do your best in collaboration with others is essential for your development. This will help you in your future career.

Against bullying

School bullying, like bullying outside the school context, refers to one or more perpetrators who have greater physical strength or more social power than their victim and who repeatedly act aggressively toward their victim. Bullying can be verbal or physical. Bullying, with its ongoing character, is distinct from one-off types of peer conflict.

Different types of bullying

Different types of school bullying include ongoing physical, emotional, and/or verbal aggression. Cyberbullying and sexual bullying are also types of bullying. Bullying even exists in higher education. There are warning signs that suggest that a child is being bullied, a child is acting as a bully, or a child has witnessed bullying at school.

Strategies to stop bullying

Some strategies used to reduce or prevent school bullying include educating the students about bullying, restricting of recording devices in the classroom, employing security technology, and hiring school safety officers.

UNKNOWN COMFORT

Behind his dragon eyes lies his truth
The unearthly burden he holds,
Which he takes freely with enthusiasm,
Even when it's often too much to endure.
He is comfort,
He is love,
He is peace.
He can still create earthquakes
And shift space and time.
He has crafted a safe world
For many to take refuge in.
He found us at the moment,
When we needed him the most.
And then, in the same breath,
He is a very separate person,
Living an unknown life, dreaming
His own dreams, Being his true self,
Existing in two realities,
Ours and His!

MAA YOU ARE IRREPLACEABLE!

Do you know why I believe in love at first sight?
Because I saw my 'MOM' when I first opened my eyes.
You are the one who gracefully gave me birth,
Due to you I am able to see this beautiful earth!

You taught me how to crawl, sit and talk,
You held my finger when I first tried to walk.
The first alphabet I learnt, it was from you,
You were my first teacher and that's true.

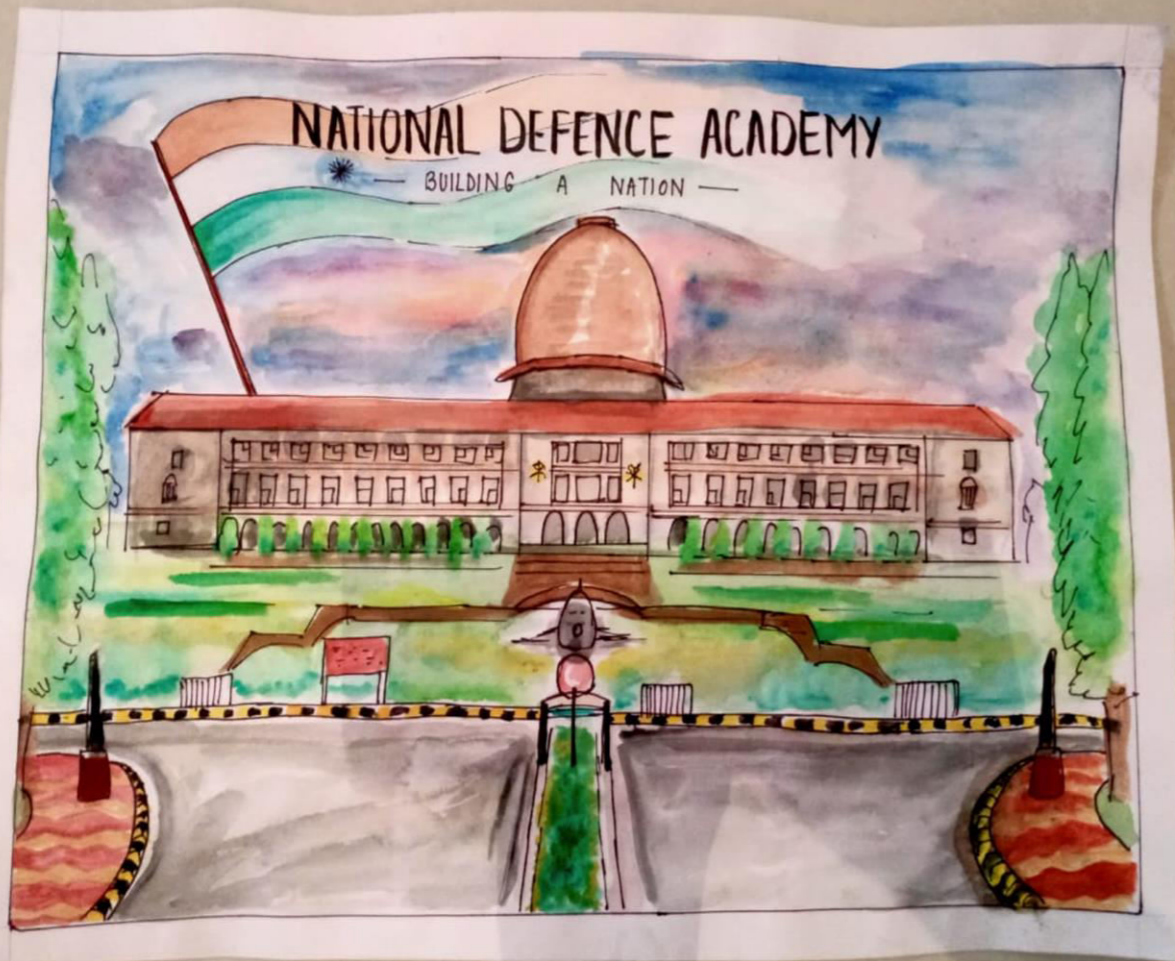

You packed my Tiffin and walked me to school,
With neat and clean uniform you made me look cool.
That '1 rupee' coin u gave me daily as pocket money,
You remained in dark but made my life sunny.

Your sacrifices are countless what more I can tell?
You never left me hungry even when you were unwell.
Whenever I need something you never refuse,
If I take a thousand births, I wouldn't be able to pay your dues.

Growing up, I often forget that you are also getting old,
My Dear "Maa" You are precious than every diamond and gold.
